ABOUT RECYCLING... IT'S MANDATORY and...

Recycling more of your trash is an important way you can help preserve our environment, reduce our consumption of precious natural resources, save yourself and our City money. The more you put out for recycling, the less you have to spend on bags. Only with your help can we reach our recycling goals. Each item that is removed from the waste stream reduces our trash disposal costs, enabling us to use that money for other important City services – all while helping to preserve our environment!

Before you throw something into your trash container, please ask yourself, "Can this be recycled?"
Even a small change can make a difference!
